The Signature Folding Floor Loom

The Purrington Looms innovative folding design was patented over 40 years ago and is still unique today. Set-up and fold-down is a snap, and allows the warp to remain intact. Requiring only 13" of folded width, the folding floor loom is easy to transport and store. Rigid, solid wood side-beam construction ensures the loom stays square and true. Additionally, the 4-Shaft, Jack type loom has 6 treadles. The Signature Loom is custom built of the finest maple and accented with a hand-rubbed natural satin finish. The floor loom arrives fully assembled with heddles, lease sticks, reed and crank included.

FOLDING LOOM PRICES
